Frontend Developer with over four years of hands-on experience crafting robust code for diverse companies, including startups, Claro, and Etb. Proficient in developing dynamic and responsive web pages and portals within the React and Angular stack. Well-versed in utilizing cutting-edge technologies like Next.js, Gatsby, and React Admin to enhance user experiences. Demonstrates strong leadership and teamwork skills, fostering collaborative environments for project success.

My expertise extends beyond frontend development, with over four months of experience as a Fullstack Developer. I've successfully executed fullstack projects using PHP, Node.js, and Next.js, leveraging React for frontend development. I am deeply immersed in the entire JavaScript ecosystem, and my continuous curiosity and eagerness to learn drive my commitment to discovering optimal ways of constructing code.

SKILLS

Programming Languages:

- **Advanced:** Python, Javascript, Typescript, Java, CSS, HTML
- **Intermediate:** C, Go, PHP
- **Basic:** C#, Rust

Frameworks and Tools:

- **Advanced:** React js, React native, Vue js, Nuxt js , Next js, Gatsby js, React Admin, express, Nest js, Remix, Svelte, Laravel, Prisma
- **Intermediate:** Angular js, Flask, flutter
- **Básico:** Django

TECH STACK: Reactjs , Gatsby, Contentful cms, Javascript, material UI, Redux sagas.

- Productive collaboration with the backend team for the creation of the conversational clubs.
- Effective coding of conversational clubs following design guidelines and using the Redux state manager.
- Creation of the Bookii page in Spanish and change of texts in cms.
- Generation of static posts using Gatsby and the Contentful cms, for the Bookii blog.

EDUCATION

Universidad Central, Bogotá D.C , Colombia - *Systems engineer*

Jan 2020-CURRENTLY

Gimnasio Campestre Bilingue Marie Curie, Bogotá D.C , Colombia -
elementary and high school
Feb 2006-Nov 2019

In my educational journey, I have focused on developing a strong foundation in Systems Engineering at Universidad Central in Bogotá. This program has provided me with comprehensive knowledge and skills in various aspects of technology and software development.

I am particularly passionate about open source content, a passion that extends beyond the classroom. I actively seek knowledge through a variety of channels, including free online courses on platforms like YouTube, as well as paid courses on platforms like Udemy and Platzi. This commitment to leveraging both free and paid resources reflects my dedication to continuous learning and staying abreast of the latest developments in the ever-evolving field of technology.
